2. Category 2: Potential Cases which require attention by their tutors

As a part of survey student counselor will visit each department and inform students about counseling centre practices and how does it help for an individual to overcome their difficulties and as a result many students started stepping in to the centre and started ventilating their worries and each and everyone were counseled according to their need and all the shared information by the students were kept confidential.

I feel better to have this counselling and I came upon many struggles as to find a route. I feel calmer not at all a happiness, I think I can control my depression and stress as much as before. I will have goodness in my heart. I feel hurt but I ignored it by accepting it because of this class. I wanted to travel in my life with these ability that I like. I accepted the surrounding. I can't believe this I love myself now-a-days. But only I have passed one week. I feel better now. I feel much better better better ever in my life I believe. I believe that I can overcome this depression, stress, etc. I don't have an idea what was it. But now I found it and will be better in my future.
