A Check Point Discussion Programs Outcomes

- Check point discussion- In this programme I have learnt the components of women's five empowerment they are: women's sense of all worth; think right to have and to determine choices; their rights to have access to opportunities and resources; their rights to have power to control their own lives; both within and outside the home and their ability to influence the direction of social societies. This all points empowered me too. I too learnt about the importance of women empowerment i.e. Empowering women is essential to the health and social development of families, communities and countries. When women are living safe, fulfilled and productive lives, they can reach their full potential. contributing their skills to the workforce and can raise happier and healthier children.
- It also brighten my mind by preaching the benefits of effective communication it create better relationships, because relationship build on the solid ground of good communication tend to be stronger and even can help to find the opportunities of our personal growth. They also said what does good communication means, Communication is primarily about word choice. And when it comes to word choice, less is more. The key to powerful and persuasive communication—whether written or spoken—is clarity and, when possible, brevity. Before engaging in any form of communication, define your goals and your audience.
- This programme was very useful for me to get know how to manage my time and what would be the outcomes if I follow the time correctly and greater confidence too. They also gave 5 hints about time. They are I came to know it would include great clarity, greater capability i.e. set reminders for all your tasks, create a daily planner, give each task time limit, block out distractions, establish routine.
