Discussion meeting on “The New Education Policy”

Report

Internal Quality Assurance Cell (IQAC) of Jamal Mohamed College, organized a Discussion meeting on “The New Education Policy” 8th August 2019 at Commerce-SF Seminar Hall.

The program was cordially inaugurated by the honorable Management committee in presence of beloved Principal and Dr. T., Abdul Razak IQAC coordinator.

Dr. A. Syed Zakir Hasan, Dean of Arts & Head of the Department of Tamil has thrown light on the topic.

In this workshop totally 50 faculty members from the various departments of our college are participated and discussed the various aspects of the policy and provided sufficient comments and suggestions to improve and strengthen the NEP.

Comments and Suggestions on the Draft New Education Policy – 2019

We the Management, Principal and Faculty Members of Jamal Mohamed College, Tiruchirappalli, Tamil Nadu take pleasure in appreciating and welcoming the Draft National Education Policy – 2019 which aims at providing quality higher education at international standards without compromising the socio-cultural values of our country.

Jamal Mohamed College is a multi-faculty institution providing quality higher education to the downtrodden and socially backward sections of the society irrespective of religion, caste, creed or colour. The college offers many programs ranging from undergraduate to Ph.D. in almost all arts and science disciplines at an affordable cost.

We would like to draw the attention of the policy makers to consider the following points while finalizing the action plan for the implementation of NEP 2019:

The New Education Policy

1. shall help to strengthen the provision of quality education to the economically and socially disadvantaged students of the society through reservation to secure equitable school & collegiate level education.
2. shall increase the literacy level and the present gross enrolment in higher education from 25 % to a substantially higher level considering the strength of our population.
3. to substantially increase the enrolment in the higher secondary level in schools which would pave way to increase the enrolment in higher education
4. needs to provide facilities to continue quality research in colleges
5. needs to ensure job security for retaining the existing quality teachers
6. shall address the challenges of access, equity, quality, affordability and accountability faced by the current education system in the country
7. shall protect higher education from privatization, corporatization and commercialization
8. shall ensure the concept of holistic approach to education in the acquisition of skills towards improving the employability.

9. shall not hike the fees in public funded educational institutions that would exclude further the marginalized and deprived sections of the society from the access of education
10. shall not insist on the introduction of Arts and Science UG programs with multiple exit with certification which would encourage more drop outs at the UG level.
11. shall not insist on the mergers, acquisition and takeover of the existing accredited higher education institutions.
12. shall do away with the admission through NTA which would lead to excessive centralization and takes away legitimate the right of the state authorities and universities in matters relating to admission of students in Higher Education Institutions. This move would also make collegiate admission and education expensive, unaffordable, inaccessible to the under privileged, especially socially and educationally backward as well as the oppressed communities, OBCs, rural and tribal communities.

The Management, Principal, and Faculty Members of Jamal Mohamed College therefore appeal to the Hon'ble Prime Minister of India and the Hon'ble Minister of Human Resource Development, Government of India to consider our comments and suggestions a make appropriate revision in the policy documents so that, the provisions of the Indian constitution are adequately honoured without deviation and also ensure the equitable justice to the socially disadvantaged sections of the society who are already deprived of the chances of getting quality education India.
