Vaccine Research to kick start at Jamal Mohamed College

In view of the Post Pandemic and Post Covid 19 scenario, Jamal Mohamed College (JMC) has taken a step forward into the arena of **Vaccine Research** by signing a historical MoU with Emory Vaccine Centre (EVC), Atlanta, USA. EVC has been making advances in Immunology, Virology and Vaccine Research to search for life saving remedies against the world's most threatening diseases plaguing millions of individuals around the globe. They have been at the forefront of providing insights into human immunity to SARS-CoV-2 infection and vaccination. The Atlanta based Emory Vaccine Centre with its comprehensive expertise in scientific, technological and clinical research thrives to become world leader in the discovery, development and clinical analysis of safe, effective and affordable vaccines.

The Zoology Department of Jamal Mohamed College is one of the oldest and pioneering departments among the academic institutions located in the southern part of India. It entered into the field of research early and started to offer Ph.D programme since 1972. As one of the pioneer research departments, it has been facilitating young students and research scholars with its expertise in the field of applied and scientific research.

The **MoU** that has been recently signed between EVC and JMC provides ample opportunity for Students and Faculty exchange in purview of research in the field of Vaccine Research and Technology. Through this Memorandum of Understanding, a preliminary Vaccine Research Centre is expected to be established in the Department of Zoology that will enable the students and staff members to involve in research leading to building up knowledge on Vaccine production. Besides the expertise of faculty members from other science departments such as Botany, Chemistry, Microbiology and Biotechnology will also be utilized to strengthen vaccine research. This MoU between Emory Vaccine Centre and Jamal Mohamed College will be one of the major milestones in the journey of Jamal's academic research pursuit.
