## List of Programs

1. To evaluate simple expressions
2. To Find the square root
3. To calculate the Area of the triangle
4. To Solve quadratic equation
5. To Swap 2 variables
6. To Check if a number is odd or even
7. To find the largest among three numbers
8. To find the factorial of a given number
9. To print the Fibonacci sequence
10. To find the sum of natural numbers
11. To make a simple calculator
12. To find factors of a given number
13. To find HCF and GCD
14. To convert decimal into other number systems
15. To display calendar
16. To sort words in alphabetical order
17. To demonstrate slice operation
18. To check whether a string is palindrome or not
19. To reverse a string
20. Program that uses different string methods like upper, lower, split, join, count, replace and find on string object.
21. To create python list
22. To multiply two matrices
23. Program using list methods.
24. To understand different types of tuples

25 . Program using tuple methods.

## EVALUATION CRITERIA

Work Book (Each unit carries 10 marks)
50 Marks
Examination - 50 Marks

1. Teacher who handles the subject will award 50 marks for work book based on the performance of the student.
2. On the day of examination the examiners (Internal \& External) will jointly award the marks for the following categories:

- Self-Introduction - 20 Marks
- Resume - 10 Marks
- Mock Interview - 20 Marks

To assess the self-introduction, Examiners are advised to watch the video presentation submitted by the students. If they failed to submit the video presentation, the Examiners may direct the student to introduce himself orally and a maximum 10 marks only will be awarded.
Mock Interview Marks Distribution (20-Marks)

| Attitude <br> (self interest, <br> confidence etc.) <br> (4 Marks) | Physical <br> appearance <br> including dress <br> code <br> (4 Marks) | Communication <br> Skills | Answering questions asked from <br> (the resume and work book <br> (6 Marks) |
