#### **Special Lecture Program**

on the occasion of **7<sup>th</sup> Water Week of India**

On the occasion of **7<sup>th</sup> Water Week of India** a special address has been offered on the title **“Water Management of Ancient Tamils”** by **Dr. Mani. Maaran, Tamil Pandit, Sarasvati Mahal, Thanjavur** on **7<sup>th</sup> November 2022, Monday** at **11.45 a.m** in **Hussainuddin Hall A/c** of our college. The programme was organised by Thanneer Sutru Choolal Manavar Mandram of our college.

We are left to release a deep sigh of yearning on looking back the water infrastructure facilities, water management technology and the methods of rain water harvest practised by our predecessors thousand years ago. They built drains to release the excess of water from the water bodies. The excess of water released to either rivers or lakes. ‘Kumili’ played the role of shutters for irrigation channels.

The lake water along with the silt was released with ‘kumili’ system. This helped the fields to get natural fertiliser. The lake also was protected from the deposits of silt. This technology was not part of western style of ‘screw system’. Hence many lakes were destroyed in course of time. The speaker reiterated the students that it is our duty to protect water by using both ancient and new technologies.

**Dr. K.ABDUS SAMAD**, Assistant Secretary of the college **inaugurated** the programme by delivering this presidential address. The **felicitations** were offered by **Prof. S.Sheik Ismail**, Coordinator of Part V Extension Activities and **Dr. T.Selvaraju**, Advisor of Thanneer Sutru Choolal Manavar Mandram. The **Chief Guest introduction** was given by **Mr. S.Vasu (II B.Sc., Physics)**. The **Executive member** of the Mandram **Mr. M.Abdul Rasheed (II B.Sc., Physics)** welcomed the gathering. In this special lecture, 06 Professors, 15 Research Scholars and 102 Club Students participated and get benefited.
