Report

The Inauguration of Cyber Security Association activities was started on 21-06-2023 at 11:30 a.m. in IT Seminar Hall. Dr. G. Ravi, Coordinator of CS & IT, Jamal Mohamed College presided over the function. Mr. Mohamed Ibrahim, CEO & Co-Founder of Cyber Heals Info Tech Pvt. Ltd, Chennai inaugurated the activities of Cyber Security Association. Dr. S. Abdul Saleem, Member In-charge of the Department, welcomed the gathering. Dr. L. Umar Ali Khan, Vice-President of Computer Science & Information Technology Association proposed a vote of thanks.

Dr. G. Ravi, in his presidential address, highlighted the dedicated services rendered by our founders of Jamal Mohamed College and the present Management for their excellent support in guiding the present generation at the right direction. Furthermore, he encouraged the staff members to conduct many more programmes under the banner of Cyber Security Association.

Mr. Mohamed Ibrahim, in his inaugural address, nurtured the young minds about the cyber security careers in India and it is high demand in our country. Further he appealed to play a key responsibility of a cyber security professional for protecting the organization's valuable data and networks.

Around 120 Students from first year B.Sc. IT with Cyber Security were actively participated in this inaugural function and derived the benefits. The Association Vice-Presidents, Dr. M.A. Jamal Mohamed Yaseen Zubeir, Dr. L. Umar Ali Khan and Student Secretaries have made all the arrangements.

CyberHeals InfoTech Pvt., Ltd.

Chennai, Tamil Nadu

29th December 2023, 10.30 a.m.

IT Seminar Hall

Report

The Cyber Security Association organized a special Placement-Oriented Special Lecture titled "Career Opportunities in Cyber Security" on 29-12-2023 at 10:30 a.m. in IT Seminar Hall. The Association Vice-President Dr. Mozibur Raheman Khan welcomed the gathering. Dr. C. Agilan, Additional Vice-President of Cyber Security Association proposed a vote of thanks.

Mr. R. Praveen Doss the guest speaker explained the following areas that has attracted huge job opportunities in today's digital world. Cyber security has become an essential part of every company's strategy for sustainability, security, and growth. As businesses grow, the demand for cyber security talent will only continue to grow in 2023 and beyond.

Cyber security is a growing industry that is still in need of skilled professionals. The global cyber security market is expected to grow from \$170 billion in 2017 to \$202 billion in 2023. The demand for cyber security jobs has risen significantly over the past few years. More than 1 million cyber security jobs will be available by 2023, but less than 400,000 cyber security professionals will be trained by then. Cyber security is an ever-growing industry. It is projected to grow by 11% in 2023 and by 20% in 2025. This is a fast-paced career with a median salary of \$81,000. To meet this growing demand and advance your career in cyber security, consider earning a cyber security certification. This credential can significantly enhance your qualifications and open doors to lucrative opportunities in the field.

The Rise in Cyber Security Jobs:

Before we dive deep into the various cyber security jobs, let's have a glimpse of why the number of cyber security jobs is increasing every single day. Did you know that, according to the University of Maryland, hackers attack every 39 seconds, on an average of 2,244 times a day?

Cyber security stands as a compelling and promising career path in the contemporary digital landscape. With the escalating frequency and sophistication of cyber threats, the demand for skilled professionals in this field is at an all-time high.

Around 120 Students from final year B.Sc. Computer Science & B.Sc. Information Technology were actively participated and derived the benefits. The Association Vice-Presidents, Dr. Mozibur Raheman Khan, Dr. C. Agilan and Student Secretaries have made all the arrangements.
