PRAYER

In the name of Allah

The most gracious and the most merciful

By the heaven and the nightly star!

And what will make you realize what the nightly star is?

It is the star of piercing brightness.

There is no soul but without a vigilant angel recording everything.

Let people then consider what they were created from!

They were created from a spurting fluid,

Stemming from between the backbone and the ribcage

Surely, he is fully capable of bringing them back to life

On the day all secrets will be disclosed.

Then one will have neither power nor any helper.

By the sky with its recurring cycles,

And the earth with its sprouting plants!

Surely this Quran is a decisive word,

And is not to be taken lightly.

They are certainly devising evil plans,

But I am too planning.

So bear with the disbeliever's O Prophet. Let them be for just a little while.

(AL QUR'AN: 86:1-17)
